# Make your large, flat-screen monitor mobile

**EZ-LIFT® ELITE AVAILABLE FOR ALL FLAT-SCREEN MONITORS 37" TO 50"**

A beautiful and innovative EZ-LIFT® cabinet will bring elegant use of a flat-panel display to your boardroom, conference room or office without sacrificing mobility.

The Elite Series cabinet stores your monitor out of sight until you are ready to use it. Then simply unlock the lid, flip it open, pull release handle and your monitor rises to presentation height. When you are finished, simply push the monitor back down into the case. It will lock for safe storage.

## Optimized for the best viewing and listening experience

- Permanently mounted and wired monitor, for easy set-up and movement.
- EZ-LIFT gas spring mechanism gently lifts display to ideal viewing height. When finished, push monitor back into cabinet for safe, unobtrusive storage.
- Two 100-watt Bose Acoustimass® stereo speakers are precisely positioned to provide rich, spacious sound that flows across your meeting area.

## A beautiful piece of furniture

- Laminated wood cabinet available in 6 stock colors (optional colors available – special order).
- Cabinet sizes available for 37" to 50" monitors.

## Quality American construction

- Mechanism called the best new rigging product for 2004 by Rental and Staging Magazine.
- Five year warranty on EZ-LIFT mechanism.

## Features

- Four locking casters.
- Shock mounted EZ-LIFT mechanism.
- Integrated cable management system.
- Built-in input/output box with two 110V outlets and space for 4 Extron mini AAP plates.
- Universal mounting bracket for monitor.
- Locking lid.
