## 24/7 Service

At MediaTech Intelligent Systems, we are known for our quality work and very high level of service.

We will start your project by working diligently to understand your needs, your lifestyle, your budget and what you are trying to achieve within your home.

We will design a custom system to fit all of these factors, and once we have your agreement, build it using the finest components and craftsmanship.

Every MediaTech system includes a one year on-site warranty. If you ever have a problem, we are available 24/7 to bring you immediate help.

# Simplify your life and get the most out of your home

**MediaTech designs and installs easy-to-use, high performance home systems** that will complement your lifestyle while streamlining the use of home entertainment, lighting, climate, communications, information and security systems.

Imagine setting up all of your home's electronic systems so they are automated or controlled with the touch of a button on your smart phone, tablet, or on a wall-mounted or wireless touch screen.

Now imagine your home optimized for watching movies and sports, listening to

music or playing video games. A home theater, media room or family room from MediaTech offers a better experience than going out. There are no crowds, no lines – the picture and sound are as good or better – and you can pause the action any time you want a snack!

While we specialize in home automation and home theater design, we regularly install lighting control, motorized window treatments, flat screen TVs, surround sound audio and home networks as well. We understand that the best customers are regular customers, and we will help you get the most out of your home audio video systems whatever your needs or your budget.

At MediaTech, we always provide outstanding service, courteous, professional technicians, clean worksites, timely delivery, and after-hours emergency service.
