LET UNITED VISUAL MAKE YOUR NEXT EVENT EASY

Planning a meeting or event? Need help with a/v equipment, lighting or staging?

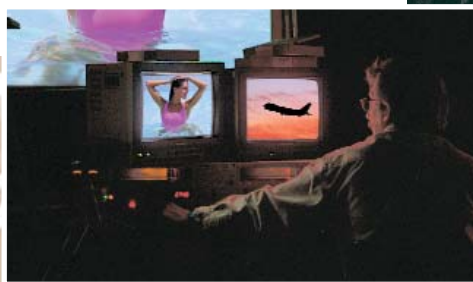

We'll make your event impressive and exciting while we help make your life easy.

We have a huge stock of rental equipment, including multimedia projectors, videoconferencing, video, computers and traditional a/v, but our services don't stop there. We offer detailed planning, complete setup services, union or non-union operators, free delivery, 24-hour telephone support, and much more.

PROJECTION AND SOUND

Video projection, switching system and operator provided for the Mobius Advertising Awards, Chicago

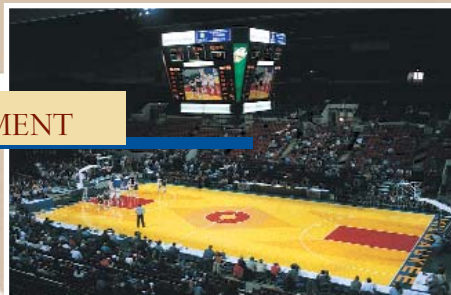

If your audience is large, a big screen image can make a huge difference to what they take away from your event. Whether you simply want to enlarge the face of a speaker or need an elaborate production to provide focus for the audience, we can help. We regularly provide our clients camera operators, directors, even instant replays and play-by-play commentary for sporting events.

Speaker enhancement for the Milwaukee Women's Fund

IMAGE ENHANCEMENT

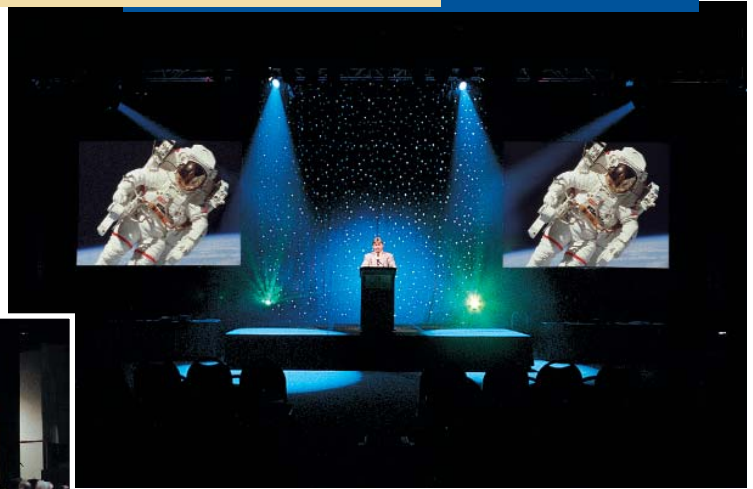

Scoreboard video and local television coverage for the Wisconsin Independent Schools Athletic Association state basketball tournament, Milwaukee

STAGE & EVENT LIGHTING

Our lighting department is second to none. We offer complete design, installation and operation services.

Whether you're planning a corporate event, political fundraiser, religious rally or even a party or concert, we'll make you impress your audience.

SPEAKER SUPPORT

Need something simple, like a microphone and PA for a small meeting? Or maybe lighting, sound and video for a sales conference, product rollout or political rally?

We can provide whatever it takes to make your event a resounding success.

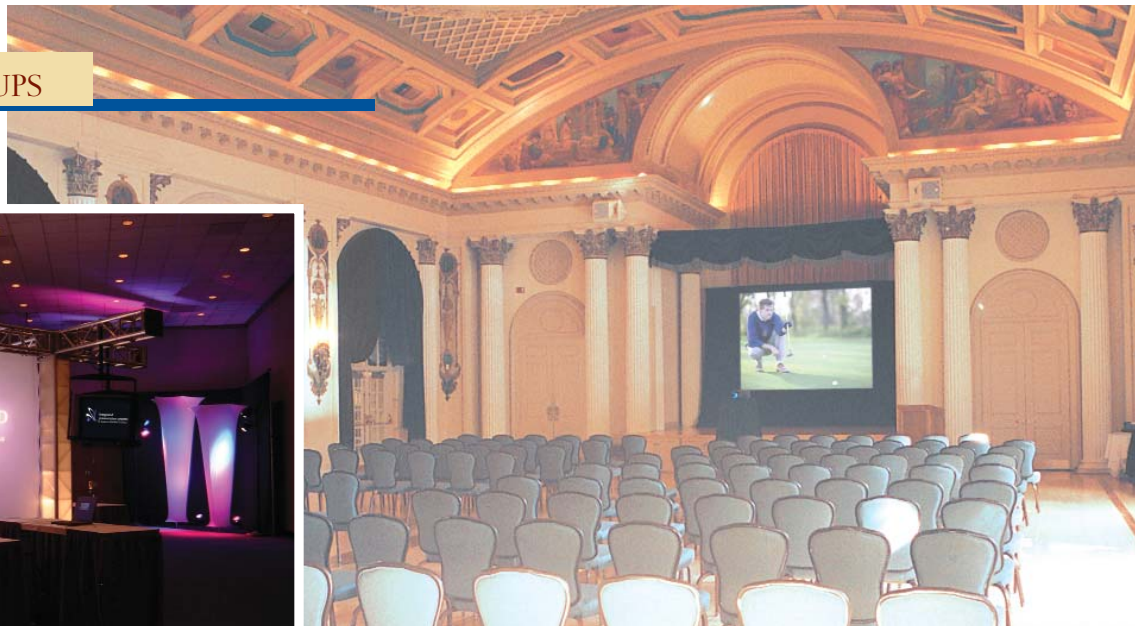

*Sound and lighting for George W. Bush for President.
Client: the Dupage County Republican Central Committee*

UNIQUE SETUPS

Our services don't stop with a/v and lighting. We can plan and coordinate your complete event, from videoconferencing systems to stage equipment, even helping with catering and special dining setups. We're anxious to show you how much we can help.

OUTSOURCING YOUR A/V

Have you considered the advantages of hiring United Visual to run your audio/visual services department?

Better service. If your customers are your highest priority, you may find that a firm like United Visual can serve them better than your own staff. It's not magic; if your people are concentrating on the core problems and opportunities of your business, they may not have time to become experts in our core business as well.

Better equipment. Because we're a dealer for the equipment we rent, we have an inside track on finding and providing the newest and best systems. Because we're an authorized service center, we can maintain them better as well.

Lower costs. Our unique position as a dealer lets us buy, sell, service and operate presentation equipment at a lower cost than almost anyone. Our in-house customers come to us for cost savings as well as quality improvements. We're able to provide both.

Among our in-house customers are the Midwest Express Center, Wisconsin's largest meeting and convention facility and Pheasant Run Resort, the midwest's largest resort and convention center.
